# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Ferguson, Vegetation Fire, Mariposa County (Continued)**

#### **Road Closure**

- SR 140 is closed between Midpines and Yosemite National Park Boundary
- Signs in the park indicate Hwy 140 at Hwy 120 will be closing
- WB Hwy 140 at the Mariposa County Line

#### **Critical Infrastructure**

Per CUEA as of 07/21/18 at 1836 hours:

- PG&E reported 54 customers are out of service in the El Portal area due to the fire.
- Mariposa Pines area (on the Southwest side of the fire) has been de-energized
- Power outage in the communities of Jerseydale and Mariposa Pine (168 customers).
- AT&T infrastructure threatened by the Ferguson fire - The El Portal Central Office along the Merced River, and the Hennes Ridge radio site.

#### **Health and Medical**

- Mariposa County Human Services has set up a dedicated line for residents with Access and Functional Needs (AFN) who may need assistance in evacuating. Toll free number is 1-833-423-0816.
- County Human Services has distributed information on how residents can construct do-it-yourself air scrubbers consisting of a box fan and an air conditioner filter. For some populations, Human Services are providing the kit and constructing/installing them.
- County Mass Care and Shelter Team stood up a rostered Evacuation Team available for deployment in the event that an evacuation occurs in an area where AFN individuals are affected. They maintain a database and have contacted those individuals.
- Due to hazardous air qualities in and around Yosemite National Park, County Environmental Health is supporting the closure of the park to visitors, not to employees. County Environmental Health and County Human Services, in conjunction with ARC, are planning to open a clean-air shelter for park employees and for visitors transitioning out of the park (planned for day use only). These actions are tentatively planned for Tuesday, 7/24/18. This is not considered an evacuation due to fire activity.

#### **Missions**

- 2018-IREOC-48201: See Cal OES Mission Tasking Slide

# **FIRE ACTIVITY**

## **INLAND REGION (Continued)**

### **Ferguson, Vegetation Fire, Mariposa County (Continued)**

#### **Recovery**

- Regional Summary and Initial Damage Estimates inputted into Cal EOC.
- The County Administrator's Office has taken the lead for recovery and is in the process of updating their recovery website. Currently, this mainly focuses on processes for cleaning out spoiled food from extended power outages.
- Repopulation planning has begun. However, the Incident Management Team (IMT) estimates only some repopulation may be able to occur after a few more operational periods; possibly by the end of the week. The American Red Cross (ARC), County Human Services, Food Bank, and County Public Works have teamed up to provide dumpsters for spoiled food, some initial provisions (food and water), and cleaning supplies to returning residents.

# WEATHER OF CONCERN

## Weather of Concern

### **Northern California:**

- Due to due to isolated to scattered thunderstorms, a Red Flag Warning remains in effect for the far northern portion of California through 2300 hours.
- Excessive Heat Watch remains in effect from Tuesday afternoon through Thursday evening for portions of Central California. High temperatures will range from 103 to 108.

### **Southern California:**

- An extended period of very hot weather except at the immediate coast and at the highest elevations of the mountains is expected for most of Southern California. The peak of the heat is expected on Tuesday and Wednesday. Nights will be quite warm as well, especially near the foothills of the mountains and in the deserts.

### **Weather Advisories, Watches, and Warnings currently active in California:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

### **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER SYNOPSIS BY REGION**

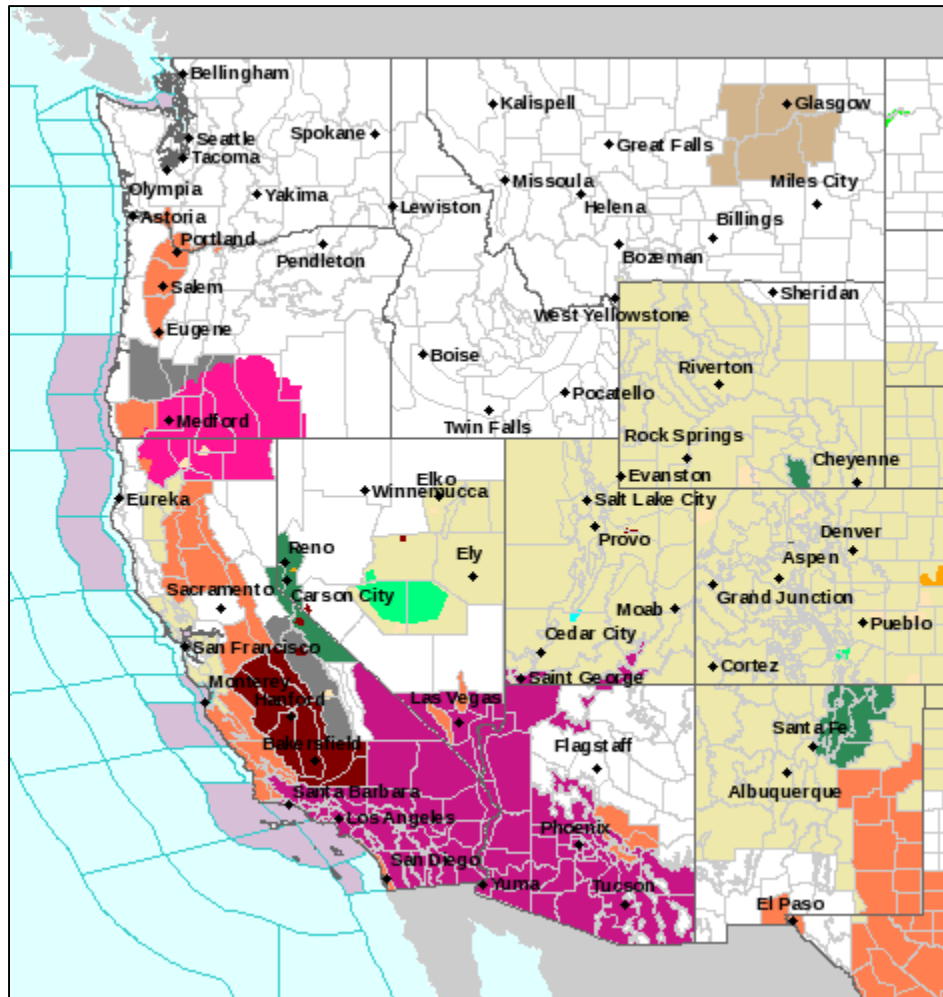

## **NORTHERN CALIFORNIA**

Thunderstorms from this afternoon have produced lightning, heavy downpours and gusty winds to 40 mph. The mountains could see isolated thunderstorms in the early evening through the weekend. Near normal temperatures and mostly sunny conditions are expected in the Valley and foothills for the remainder of the weekend, before hotter weather returns early next week. Temperatures are expected to rise again this week; Valley temperatures will range from 100 to 109 degrees by midweek.

## **SOUTHERN CALIFORNIA**

The potential for record breaking heat continues into the long term with excessive heat watches/warnings continuing through Thursday . A ridge of high pressure is expected to gradually break down while shifting nearly overhead through Thursday before shifting northeast into the interior. This will support continued hot conditions for interior areas through Thursday before gradual cooling commences heading into next weekend. Closer to the surface, gusty and possibly advisory level Sundowner winds may continue for western portions of the Santa Barbara County South Coast into Wednesday or Thursday evening , with breezy but sub- advisory winds also possibly continuing in the Los Angeles and Ventura mountains near the I-5 corridor. Once these winds relax, models are indicating the development of a moderate eddy circulation by Thursday or Friday which could bring significant cooling and moistening of the lower atmosphere to the coastal plain, especially south of Point Conception. It may also mark the return of more widespread night to morning low clouds to these areas.
